## **New Environmental League At MERHS!**

“The Environmental Outreach League” is now a part of MEHS. The goal of the league is to gather a group of students *passionate about the environment and outreach* to nearby communities to aid in sustainability, environmental education, and land maintenance. *Multiple volunteering opportunities have already been organized*, both safely outdoor and virtual, and are completely open for students to sign up. Examples of groups we are working with are the Trustees of Reservations and Climate Cafes so far.
